

Compressed Air Controls – Official NZ distributor for the Bimba/TRD product range

The **Bimba** extensive industry-leading actuator product line features air cylinders to VDMA, ISO and NFPA standards, space saving cylinders, rotary actuators, linear thrusters, rodless cylinders with a vast array of switch sensing and position feedback options. They also offer rotary actuators, magnetically coupled rodless cylinders and accessories.

In addition to a broad line of standard catalogue products, nearly half of Bimba's business consists of custom and semi-custom products designed for specific customers with unique or challenging applications.

The Bimba Range:

- Original Line Stainless Steel Body Cylinders
- Space-Saving Flat Cylinders
- Roundline NFPA-Interchangeable Double-Wall Cylinders
- Pneu-Turn Rotary Actuators
- Ultram Rodless Cylinders

- Position Feedback Cylinders
- ISO Cylinders
- TRD Manufacturing
